

SENIOR SCHOOL PROSPECTUS

AN INFORMATION
GUIDE FOR PARENTS TO
SENIOR SCHOOL STUDIES
AT THORNIE SENIOR
HIGH SCHOOL

Thornlie Senior High School

Our Vision – Engage Inspire Achieve

Thornlie Senior High School students fulfil their aspirations working in an environment that emphasises the importance of respectful relationships and the achievement of personal best.

High Performance – High Care

Dear Students and Parents/Caregivers

Senior School Choices for Students at Thornlie SHS

Thornlie Senior High School has a proud history established over its more than 50 years of service to our students, of providing challenging and engaging senior secondary pathways of study.

This document will provide you with the full range of Year 11 and 12 ATAR, General, VET and Big Picture Courses available for our students to select from as they work towards preparing to achieve their career goals.

At the end of 2026, Year 10 Thornlie students will enter the next phase of their secondary education and progress into Senior School studies. Their focus will be on participating in Year 11 and 12 Courses that will provide the foundation for their move into university, training or the workplace at the end of their secondary education.

In the Senior Years students are carefully monitored and supported by their Year Coordinator, Deputy Principal - Senior School and Teachers to ensure they achieve their best possible grades. This support will ensure they are well prepared to follow their career aspirations on their successful completion of Year 12.

I invite you to explore this handbook and discover the broad array of courses, various modes of study and different campus/work options on offer. These offerings have been carefully designed to meet your needs and assist you to achieve your aspirations.

Over the coming months, we will work directly with you to assist you in selecting an academic program that is relevant, fulfilling and challenging.

I trust that you find this handbook both useful and informative.

We look forward to working through this important decision making and course selection process with you.

Charmaine Ford
Principal

INTRODUCTION

This handbook has been written to provide information to parents and students to enable them to make informed decisions about directions for Year 11 and 12 in 2027/2028.

Changes to senior school secondary education are ongoing as the school system adjusts to changes to the WACE requirements, changes in the employment scene as well as increasing competition for university and TAFE places. Please note that the information contained in the booklet is current as of May 2021. If parents/guardians or students need to find out further developments they can access the School's Curriculum and Standards Authority website – <http://www.scsa.wa.edu.au/publications/year-10-information>.

CHOOSING WISELY

Students must consider choices wisely. All senior school students should ask themselves the following questions when selecting a course:

- What occupations are of interest?
- Which subjects do I need for the occupations that interest me?
- What are my subject pathways?
- What am I good at? What subjects do I find difficult?
- What are my current levels of achievement?

Forward planning is essential if you are to make the most of your opportunities. Take the time to access and research quality career information. It is very difficult to change subjects once the timetable has been set. The following guidelines may be helpful:

1. Relate subjects to current career information.

It is helpful to have a few career choices in mind before choosing subjects. If you are unsure about this at present, seek help in trying to choose a course that will keep several career options open to you.

2. Find out about the full list of subjects the school offers.

Check out each subject carefully. To do this it will be necessary to:

- Read the subject descriptions in this booklet
- Talk to teachers and the Head of Learning Area for each subject
- Talk to students currently enrolled in the subject
- Read the VET Courses and Policies booklet

3. Decide on the subjects that suit your requirements and abilities.

Students need to remember that all ATAR courses will have an examination that must be taken if you wish to qualify for direct university entrance. Any General course will not have an examination but students need to remember that results for all units can count towards TAFE entry. Remember TAFE is a valid pathway to university and careers.

4. Be prepared to ask for help.

There are many people around to talk to –

- Parents
- Career Education Teachers
- TAFE and University Admission Officers
- Vocational Education & Training (VET) Program Coordinator
- Careers Reference Centre staff

Additional information may be obtained from <http://www.education.gov.au/job-guide>

UNDERSTANDING YEARS 11 & 12

Students commencing Year 11 at Thornlie SHS have a choice of three pathways: Big Picture Academy, General or ATAR. Students are advised to choose the pathway that best suits their intended post-school destination. All students should enrol in the Course **which best matches their previous level of achievement**. Below is an outline of the two pathways and their possible subject combinations.

Please note:

The subjects chosen for study in Year 11 must continue to be studied in Year 12.

PATHWAYS

General Pathway – to gain entry to TAFE, Apprenticeship or Employment;

Students who are not studying the ATAR pathway must study the General pathway. Students studying the General pathway at Thornlie SHS must enrol in **one** Certificate course. For the other 5 subjects it is recommended that students choose General subjects.

Certificate Pathway students should ideally combine their certificate course with General subjects only, however selecting one ATAR course is permitted if their intended career requires. For example, students wishing to become an Electrician will need to study ATAR Maths (Provided they obtain their teacher's recommendation)

Possible subject combinations:

- 1 CERTIFICATE COURSE and 5 GENERAL subjects
- 1 CERTIFICATE COURSE, 4 GENERAL subjects and 1 ATAR subject

ATAR Pathway – to gain direct entry to University;

To determine a student's ATAR their 4 highest scoring subjects are used. For this reason, a student intending to obtain an ATAR score, must study at least 4 ATAR subjects in Years 11 & 12. Students may choose to have a 'back-up' subject (in case they do not perform well in one of their exams) and select 5 ATAR subjects. This is a wise decision; however students need to realise that 5 ATAR subjects presents more work than 4 ATAR subjects.

ATAR students will also need to study one Certificate Course, which will assist in achieving TAFE entry should they choose that option.

Possible subject combinations:

- 4 ATAR subjects, 1 GENERAL subject and 1 CERTIFICATE COURSE*
- 5 ATAR subjects and 1 CERTIFICATE COURSE*
- 6 ATAR subjects (for those who select Maths Specialist)

*** Please note:** *ATAR students selecting Certificate II in Community Services or Hospitality will be required to undertake the Workplace Learning requirements of these courses at the end of Year 11.*

Big Picture Academy – to gain Employment, an Apprenticeship, acceptance to TAFE/University via portfolio entry;

Students undertaking the Big Picture pathway at Thornlie SHS must enrol in **one** Certificate course. For the remainder of the time, students will be in their classroom with their Advisory Teacher working on their individual interest projects.

TERTIARY ENTRANCE REQUIREMENTS

To be considered for university admission as a school leaver, an applicant must:

1. Meet the requirements for the **Western Australian Certificate of Education (WACE)** as prescribed by the School's Curriculum and Standards Authority,
2. Achieve **competence in English** as prescribed by the individual universities,
3. Obtain a sufficiently high **Australian Tertiary Admission Rank (ATAR)** for entry to a particular university and/or course; and
4. Satisfy any **prerequisites** or special requirements for entry to particular courses.

UP-TO-DATE INFORMATION WILL BE PUBLISHED ON THE TISC WEBSITE IN JULY.

Portfolio Pathway University:

In addition to the requirements outlined above, some universities offer an additional pathway for entry by school leaver students. Detailed information about the requirements for the Portfolio Entry Pathway may be obtained from each individual university's website.

Full details regarding individual university entrance requirements and processes are available from the TISC website: www.tisc.edu.au. The University Admission 2027 booklet will soon be available on the website, but please note that it is subject to change.

University Application Procedures:

Information about applying to the universities and admission to undergraduate courses will be sent to Year 12 students at their schools in August. Application will be via TISC's website. The closing date for applications without incurring a late fee is normally the end of September. Offers of admission are made by the universities in the second half of January and in early February.

Any further information about application procedures may be obtained from TISC. Enquiries about mid-year entry, external studies and particular course requirements should be directed to the university concerned.

Applications need to be made through TISC when the applicant is:

- an Australian citizen,
- a New Zealand citizen,
- Approved/granted Australian permanent resident status.

International students do not fit these categories and will need to apply directly to the International Office at the relevant university. Full details regarding individual university entrance requirements and processes are available from the TISC website: <http://www.tisc.edu.au>.

TRAINING WA STATE TRAINING PROVIDERS (including TAFE)

State Training Providers (STP) offers courses for vocational education and training, apprenticeships and traineeships, support for workplace learning and courses for business and industry.

To gain entry into a State Training Provider (STP), applicants need to meet the entrance requirements for the chosen course. Where a course is deemed to be competitive, applicants are required to meet both the entrance requirements and selection criteria. Selection criteria will focus on secondary education achievement, skill development, previous qualifications and workplace learning (paid or unpaid). Courses that require selection criteria to be met will clearly indicate this below the entrance requirement information.

The Career Centre (Perth City Centre):

GPO Building:

Level 7

3 Forrest Place

Perth WA 6000

Email: career.centre@dtwd.wa.gov.au

Phone: 13 23 98 or 9224 6500

Students who are interested in applying for State Training Provider (STP) courses are strongly advised to access the latest information from **www.tafechoices.com**. Students will find detailed information on the website, but if more information or clarification is needed, then contact ***The Career Centre (Perth City Centre)***.

APPRENTICESHIPS AND TRAINEESHIPS

Students can begin a training qualification in Years 11 and 12 at the same time as completing the Western Australian Certificate of Education (WACE) through one of TWO programs: School Based Apprenticeship or School Based Traineeship. Students generally attend school for three days and spend one day in the workplace and one day at a registered training organisation. Apprenticeships and traineeships combine practical experience at work with structured training that leads to a nationally recognised qualification. If students are interested in technical trades such as bricklaying or cabinet making, then they would consider an apprenticeship. Traineeships are usually in non-trade areas such as hospitality, business, manufacturing and health.

School Based Apprenticeships:

School based apprenticeships allow students in Years 11 and 12 to start an apprenticeship while still at school. Students enter into a legal binding contract between the employer, the student and parent/guardian to complete the apprenticeship. Apprentices enter into a contract with an employer who teaches all aspects of a trade. Apprenticeships are structured programs where students learn on the job and attend training at a Training WA (TAFE) college or another registered training provider.

School Based Traineeships:

School based traineeships allow students in Years 11 and 12 to develop skills and get paid while they prepare for a career in the workforce. Students work towards secondary graduation and an industry recognised qualification. Students enter into a legally binding contract between the employer, the student and parent/guardian to complete the traineeship. Trainees enter into a contract with an employer in order to gain hands-on skills and work experience while earning a wage.

Aboriginal School Based Training:

Aboriginal School Based Training helps students start an apprenticeship or traineeship whilst attending school.

As an apprentice or trainee, students are employed by a group training organisation, which places them with host employers. Students spend time in the workplace with the host employers and time training with the training providers. Students are paid and gain skills for the real world.

UNDERSTANDING THIS GUIDE

We are a fully comprehensive senior school with Certificate, Foundation, General and Endorsed courses available. For ease of identification, courses have been highlighted as the following:

Certificate

Foundation

General

Endorsed

ATAR

ENDORSED COURSES

WORKPLACE LEARNING

(ADWPL)
ENDORSED PROGRAM

Workplace Learning (ADWPL):

The following students must all do Workplace Learning:

1. Students enrolled in Certificates in VET
2. Students enrolled in at least four General courses

Workplace Learning is an endorsed program, which involves training and assessment in a real workplace, providing Year 11 and 12 students with supervised learning activities. A skills journal requiring ten questions is to be completed after each 55-hour block.

Achievement of 55 hours of Workplace Learning provides one-unit equivalent towards the WACE completion requirement.

Students will attend on the job training for 4 x two-week block during Years 11 & 12. This will provide the opportunity to achieve two units towards WACE each year.

Completion requirements:

To achieve one program of Workplace Learning students must have:

- Completed a total of 55 hours in the workplace relating to their certificate
- Maintained a logbook documenting workplace attendance and tasks undertaken
- Completed the workplace learning skills journal after each 55-hour block

CERTIFICATE COURSES

Vocational Education & Training (VET):

As a Registered Training Organisation, will be offering Vocational Programs in many different areas. Students who are part of these programs will be involved in regular work placement.

Enrolment in a VET program provides students with the opportunity to gain additional qualifications that are nationally recognised by employers, TAFE and other training organisations. Many of these programs include nationally recognised Units of Competency, which, if successfully completed, can lead to Certificate I, II or III qualifications, accredited under the Australian Qualifications Framework.

Vocational Education and Training (VET) in Schools program are delivered as part of a broad, general education that combines study towards the Western Australian Certificate of Education (WACE) with a nationally recognised VET qualification within the Australian Qualification Framework (AQF).

Thornlie Senior High School is committed, through its administration and VET staff, to offer the best and most comprehensive range of subjects available.

Thornlie Senior High School gained status as a Registered Training Organisation (RTO) in 2005.

As an RTO, Thornlie SHS delivers National Competencies which are recognised by TAFE and industry. Competencies completed will attract TAFE exemption and gain selection points for TAFE entry.

Full qualifications are offered as follows by Thornlie SHS as a Registered Training Organisation:

- BSB20120 Certificate II in Workplace Skills
- CHC22015 Certificate II in Community Services
- CUA20120 Certificate II in Dance
- CUA20220 Certificate II in Creative Industries (Design Focus)
- CUA20720 Certificate II in Visual Arts (Fine Arts Focus)
- ICT20120 Certificate II in Applied Digital Technologies
- MEM20422 Certificate II in Engineering Pathways
- SIS20122 Certificate II in Sport and Recreation
- SIT20322 Certificate II in Hospitality

For each of the Certificate Courses included in the following pages, please be aware that:

- Each qualification is subject to change due to continuous Training Package Reviews
- Students are enrolled in the same certificate course across Year 11 and 12
- Students will not be allowed to change certificate courses after Week 3 Term 1 in Year 11
- Students must attend a minimum of 90% of scheduled classes.
- Students who choose to study this course in Year 11 must continue the course in Year 12.
- Certificate II in Community Services (Childcare) and Certificate II in Hospitality have a compulsory work-based component where students will be required to attend a workplace relating to their certificate.

Trading as an RTO (Registered Training Organisation), Thornlie SHS is required to supply all students with extended information on Courses and Policies before entry into the course. The Vocational Education and Training Programs handbook contains additional information on Vet Courses and Procedures. A range of learning strategies in a variety of learning environments will be used in order to cater for differences in learning styles, learning interests and needs, and variations in learning opportunities (including online).

At Thornlie SHS students are only permitted to study one Certificate course. This course can contribute up to four of the 20 units you need to achieve your WACE.

Qualification Description

This qualification reflects the role of individuals in a variety of entry-level Business Services job roles. This qualification also reflects the role of individuals who have not yet entered the workforce and are developing the necessary skills in preparation for work. These individuals carry out a range of basic procedural, clerical, administrative or operational tasks that require self-management and technology skills. They perform a range of mainly routine tasks using limited practical skills and fundamental operational knowledge in a defined context. Individuals in these roles generally work under direct supervision.

Entry Requirements

There are no entry requirements for this qualification

Job role

- Administration Assistant / Clerical Worker
- Data Entry Operator
- Information Desk Clerk / Office Junior
- Receptionist

Suggested Home Study Commitment

2 hours per week

Course Information**Qualification Rules**

Year 11/12	DBUS/EBUS	BSB20120 Certificate II in Workplace Skills	Total number of units = 10 5 core unit plus 5 elective units
------------	-----------	---	--

Qualification Description

This qualification may be used as a pathway for workforce entry as community services workers who provide a first point of contact and assist individuals in meeting their immediate needs. At this level, work takes place under direct, regular supervision within clearly defined guidelines.

Course Outline

In order to complete this course, the student must complete a total of nine (9) Units of Competency. Five (5) of these are compulsory core units and the remaining four (4) are elective units chosen by the teacher delivering the content. Students must also complete work placements during the course.

Entry Requirements

There are no entry requirements for this qualification.

Suggested Home Study Commitment

2 hours per week

Course Information**Qualification Rules**

Year 11/12	DCFCC/ECFCC	CHC22015: Certificate II in Community Services	Total Number of Units = 9 5 core units plus 4 elective units
------------	-------------	--	--

Prerequisites

Nil. However, having studied Dance in lower school is preferred.

Qualification Description

This qualification reflects the role of individuals developing basic technical skills and knowledge to prepare for work in the live performance industry. The job roles that relate to this qualification may include trainee Indigenous dancer, trainee contemporary dancer or trainee musical theatre dancer. This course involves both practical and theoretical studies of Dance which will be divided evenly into two (2) periods of each. This will include students receiving tuition from outside experts in a range of different dance genres throughout the course. Students will spend a proportion of their learning in a classroom, covering the theoretical components of the Dance course.

Course Outline

In order to complete this course, the student must complete a total of ten (10) units. Six (6) of these are compulsory core units and the remaining four (4) are elective units chosen by the teacher delivering the content.

Suggested Home Study Commitment

2 hours per week

Course Information

Course Information			Qualification Rules
Year 11/12	DDAN/EDAN	CUA20120 Certificate II in Dance	Total number of units = 10 6 core unit plus 4 elective units

Qualification Description

This qualification reflects the role of individuals who are developing the basic creative and technical skills that underpin visual arts and craft practice. It applies to work in different visual arts, craft and design environments. The job roles that relate to this qualification may include Ceramics Studio Trainee, Community Arts Workshop Assistant and Arts Practitioner. It also provides a pathway to other visual arts, craft and design job roles.

Course Outline

In order to complete this course, the student must complete a total of nine (9) Units of Competency. Four (4) of these are compulsory core units and the remaining five (5) are elective units chosen by the teacher delivering the content. Students must also complete work placements during the course.

Entry Requirements

Must have studied Art in Years 9 or 10.

Suggested Home Study Commitment

2 hours per week

Course Information

Course Information			Qualification Rules
Year 11/12	DVIS/EVIS	CUA20720 Certificate II in Visual Arts	Total number of units = 9 4 core unit plus 5 elective units

Qualification Description

This qualification reflects the role of individuals with the skills and knowledge to perform in a range of varied activities in the creative industries where there is a defined range of contexts. It applies to work in different work environments that include Design Graphics, screen and media, and photography. Individuals complete tasks with limited complexity and with required actions clearly defined.

Course Outline

In order to complete this course, the student must complete a total of ten (10) Units of Competency. Three (3) of these are compulsory core units and the remaining seven (7) are elective units chosen by the teacher delivering the content. Students must also complete work placements during the course.

Suggested Home Study Commitment

2 hours per week

Entry Requirements

There are no entry requirements for this qualification.

Course Information

Course Information			Qualification Rules
Year 11/12	DMED/EMED	CUA20220 Certificate II in Creative Industries	Total Number of Units=10 3 Core Units plus 7 Elective Units

Qualification Description

This pathways qualification provides the foundation skills and knowledge to use basic applied digital technologies in varied contexts. The qualification is designed for those developing the necessary digital and technology skills in preparation for work. These individuals carry out a range of basic procedural and operational tasks that require digital and technology skills. They perform a range of mainly routine tasks using limited practical skills and knowledge in a defined context. The qualification is suitable for someone generally performing under direct supervision.

Course Outline

In order to complete this course, the student must complete a total of twelve (12) Units of Competency. Six (6) of these are compulsory core units and the remaining six (6) are elective units chosen by the teacher delivering the content. Students must also complete work placements during the course.

Entry Requirements

There are no entry requirements for this qualification.

Suggested Home Study Commitment

2 hours per week

Course Information

Course Information			Qualification Rules
Year 11/12	DIDMT/EIDMT	ICT20120 Certificate II in Applied Digital Technologies	Total Number of Units=12 6 Core Units plus 6 Elective Units

Qualification Description

This qualification develops trade-like skills and is not intended to develop trade-level skills. As an example, the outcome level of welding skills from this qualification is not about learning trade -level theory and practice of welding; it is about being introduced to welding, how it can be used to join metal with the opportunity to weld some metal together. Similarly, with machining the outcome should be something produced on a lathe etc., not the theory and practice of machining. The focus should be on using engineering tools and equipment to produce or modify objects. This needs to be done in a safe manner for each learner including people near the learner.

Course Outline

In order to complete this course, the student must complete a total of twelve (12) Units of Competency. Four (4) of these are compulsory core units and the remaining eight (8) are elective units chosen by the teacher delivering the content. Students must also complete work placements during the course.

Suggested Home Study Commitment

2 hours per week

Entry Requirements

There are no entry requirements for this qualification.

Course Information**Qualification Rules**

Year 11/12	DENP/EENP	MEM20422 Certificate II in Engineering Pathways	Total number of units = 12 4 core unit plus 8 elective units
------------	-----------	---	--

Qualification Description

This qualification reflects the role of individuals who apply the skills and knowledge to work in the sport and recreation industry in a generalist capacity. Likely functions for someone with this qualification include providing support in the provision of sport and recreation programs, grounds and facilities maintenance, routine housekeeping, retail and customer service assistance, administrative assistance and café service in locations such as fitness centres, outdoor sporting grounds or complexes or aquatic centres. All job roles are performed under supervision.

Course Outline

In order to complete this course, the student must complete a total of then (10) Units of Competency. Six (6) of these are compulsory core units and the remaining four (4) are elective units chosen by the teacher delivering the content. Students must also complete work placements during the course.

Suggested Home Study Commitment

2 hours per week

Entry Requirements

There are no entry requirements for this qualification.

Course Information

Year 11/12	DSPR/ESPR	SIS20122 Certificate II in Sport and Recreation	Qualification Rules Total number of units = 10 6 core unit plus 4 elective units
------------	-----------	---	--

Qualification Description

This qualification reflects the role of individuals who have a defined and limited range of hospitality operational skills and basic industry knowledge. They are involved in mainly routine and repetitive tasks and work under direct supervision. This qualification provides a pathway to work in various hospitality settings, such as restaurants, hotels, motels, catering operations, clubs, pubs, cafés, and coffee shops. The skills in this qualification must be applied in accordance with Commonwealth and State/Territory legislation, Australian standards and industry codes of practice.

Course Outline

In order to complete this course, the student must complete a total twelve Units of Competency. Six (6) of these are compulsory core units and the remaining six (6) are elective units chosen by the teacher delivering the content. Students must also complete work placements during the course.

Suggested Home Study Commitment

2 hours per week

Entry Requirements

There are no entry requirements for this qualification.

Course Information

Year 11/12	DHOS/EHOS	SIT20322 Certificate II in Hospitality	Qualification Rules Total number of units = 12 6 core unit plus 6 elective units
------------	-----------	--	--

VISUAL ARTS

(GEVIS)

GENERAL SUBJECT

The Visual Arts General course encourages students to develop problem-solving skills together with creative and analytical ways of thinking. Innovation is encouraged through a process of inquiry, exploration and experimentation.

This course allows students to engage in traditional, modern, and contemporary art forms and conventions, such as sculpture, painting, drawing and ceramics. The Visual Arts General course aims to contribute to a sense of enjoyment, engagement, and fulfilment in their everyday lives, as well as to promote an appreciation for the environment and ecological sustainability.

The Year 11 syllabus is divided into two units, each of one semester duration, which are typically delivered as a pair. The notional time for each unit is 55 class contact hours.

For more information on this course, click the link below: <https://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/arts/visual-arts> Prerequisites: [Complete the Year 8 -10 Visual Arts Curriculum](#)

DESIGN (PHOTOGRAPHY)

(GEDESP)

GENERAL SUBJECT

In the Design General course students develop skills and processes for current and future industry and employment markets. Students are equipped with the knowledge and skills to understand design principles and processes, analyse problems and devise innovative strategies through projects that focus on photography techniques.

Through hands-on design projects, students develop essential skills in applying design principles, analysing problems, devising innovative strategies and communicating designed solutions. They will learn to use a structured design process that leads to effective solutions for identified challenges. Understanding design principles empowers students to better interact with their environment and become more discerning

consumers of visual information, helping them recognise when design is used to inform, entertain or persuade.

The Year 11 syllabus is divided into two units, each of one semester duration, which are typically delivered as a pair. The notional time for each unit is 55 class contact hours.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/arts>

MUSIC

(GEMUS)

GENERAL SUBJECT

The Music General course encourages students to explore a range of musical experiences, developing their musical skills and understanding, and creative and expressive potential, through a selected musical context.

The course consists of a written component incorporating Aural and Theory, Composing and arranging, Investigation and analysis, in addition to a practical, performance component. The written component is weighted 60% and the performance component is weighted 40%.

The practical component consists of a performance context, which is delivered independent of the written component.

The Music General course provides opportunities for creative expression, the development of aesthetic appreciation, and understanding and respect for music and music practices across different times, places, cultures and contexts. Students listen, compose, perform and analyse music, developing skills to confidently engage with a diverse array of musical

experiences both independently and collaboratively. Studying music may also provide a pathway for further training and employment in a range of professions within the music industry.

Prerequisites:

- Ability to play an instrument proficiently and/or sing lead vocals (Essential)
- Ability to read traditional music notation in treble and bass clef (Essential).
- Must have studied Inst. Music in lower school.

Suggested Home Study Commitment:

- 1 hour per week for theory work, plus 2 hours instrumental/vocal practice

Please note: Students who have studied Instrumental music in lower school who are unable to select General Music in Year 11 due to timetabling constraints are able to continue receiving their instrumental lessons and ensemble rehearsals, participate in concerts etc by selecting to enrol in the endorsed program, PIMS. Successful completion of the PIMS program over Year 11 and 12 is equivalent to a C grade on your WACE. Please discuss with your instrumental and classroom music teachers to express your interest in PIMS Year 11.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/arts>

English

ENGLISH

(FEENG)

FOUNDATION SUBJECT

The English Foundation course aims to develop students' skills in reading, writing, viewing, speaking and listening in work, learning, community and everyday personal contexts. This course is for students who have not demonstrated the literacy standard in the OLNA and are rated Category 1. Such development involves an improvement in English literacy, where literacy is defined broadly to include reading ability, verbal or spoken literacy, the literacy involved in writing, and visual literacy.

Students undertaking this course will develop skills in the use of functional language conventions, including

spelling, punctuation and grammar. Good literacy skills are required for comprehending and producing texts; for communicating effectively in a learning or working environment, or within a community; or for self-reflection; and for establishing one's sense of individual worth.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/english>

ENGLISH

(AEENG)

ATAR SUBJECT

The English ATAR course focuses on developing students' analytical, creative, and critical thinking and communication skills in all language modes, encouraging students to critically engage with texts from their contemporary world, the past, and from Australian and other cultures. Through close study and wide reading, viewing and listening, students develop the ability to analyse and evaluate the purpose, stylistic qualities and conventions of texts and to enjoy creating

imaginative, interpretive, persuasive and analytical responses in a range of written, oral, multimodal and digital forms.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/english>

ENGLISH AS AN ADDITIONAL LANGUAGE

(AEELD) ATAR SUBJECT

The EAL/D courses are designed for students who speak another language or dialect as their first or 'home' language. EAL/D focuses on development of the competent use of Standard Australian English (SAE) in a range of contexts. The EAL/D ATAR course develops **academic** English skills to prepare students for tertiary study.

Enrolment into EAL/D as a Year 12 student cannot occur without eligibility approval. For a student to gain approval to enrol, the appropriate eligibility application must be completed and submitted to the Authority, along with the required supporting documentation. EAL/D eligibility status is determined on a case-by-case basis.

While eligibility for EAL/D is only required for students enrolling in Year 12 courses, schools are advised to

collect documentation supporting EAL/D eligibility applications at the time of initial student enrolment in the school. Schools may submit students' eligibility applications from the time that students are in Year 10 if they wish to determine the appropriate pathway for their students.

Any student who has not finalised their EAL/D eligibility by the time of the Year 12 enrolment deadline, as published in the WACE Activities Schedule for that year, will not be able to enrol in a Year 12 EAL/D course for that year.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/english>

ENROLMENT CRITERIA FOR EAL/D AS A YEAR 12 STUDENT

If you do not speak Standard Australian English as your home language or are profoundly deaf and have had limited schooling in English or a limited period of residence in a country where English is not widely used, you may be eligible to enrol in EAL/D.

Eligibility criteria do not apply for this course in Year 11, but they do in Year 12.

There is a form that needs to be completed in Year 11 to ensure you are permitted to enrol in EAL/D in Year 12.

It is your responsibility to ensure the form is fully and accurately completed before it is submitted. The application form, stating the deadlines for submission, is available on the Authority website at www.scsa.wa.edu.au/internet/Events_and_Forms/Application_Order_Forms. You should discuss your enrolment options with your year coordinator.

ENGLISH

(GEENG) GENERAL SUBJECT

The English General course focuses on consolidating and refining the skills and knowledge needed by students to become competent, confident and engaged users of English in everyday, community, social, further education, training and workplace contexts. The course is designed to provide students with the skills to succeed in a wide range of post-secondary pathways by developing their language,

literacy and literary skills. Students comprehend, analyse, interpret, evaluate and create analytical, imaginative, interpretive and persuasive texts in a range of written, oral, multimodal and digital forms. For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/english>

ENGLISH AS AN ADDITIONAL LANGUAGE

(GEELD) GENERAL SUBJECT

The EAL/D courses are designed for students who speak another language or dialect as their first or 'home' language. EAL/D focuses on development of the

competent use of Standard Australian English (SAE) in a range of contexts. The EAL/D General course prepares students for a **range of post-secondary**

destinations in further education, training and the workplace.

Enrolment into EAL/D as a Year 12 student cannot occur without eligibility approval. For a student to gain approval to enrol, the appropriate eligibility application must be completed and submitted to the Authority, along with the required supporting documentation. EAL/D eligibility status is determined on a case-by-case basis.

while eligibility for EAL/D is only required for students enrolling in Year 12 courses, schools are advised to collect documentation supporting EAL/D eligibility applications at the time of initial student enrolment in the school. Schools may submit students' eligibility applications from the time that students are in Year 10

if they wish to determine the appropriate pathway for their students.

Any student who has not finalised their EAL/D eligibility by the time of the Year 12 enrolment deadline, as published in the WACE Activities Schedule for that year, will not be able to enrol in a Year 12 EAL/D course for that year.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/english>

Health & Physical Education

HEALTH STUDIES

(AEHEA)

ATAR SUBJECT

In this ATAR course students explore health as a dynamic quality of life. They examine the impact of social, environmental, economic and biomedical determinants on health and their collective contribution to health disparities, as well as exploring approaches to address barriers which prevent groups from experiencing better health. Students apply inquiry skills to examine and analyse health issues, develop arguments and draw evidence-based conclusions. The course also provides students with opportunities to develop skills that will enable them to pursue careers in health promotion, research or community health care.

Prerequisites:

- *Students must achieve a B grade or above in Year 10 English and Year 10 Health.*

Note:

- Students are required to purchase a textbook for this course, please check the booklist.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/health-and-physical-education>

HEALTH STUDIES

(GEHEA)

GENERAL SUBJECT

In this General course students explore health as a dynamic quality of life. They will consider the way in which beliefs and attitudes influence health decisions and learn how to plan and take action that will promote their own and the health of others. They examine the impact of social and environmental factors on health and use inquiry skills to investigate and respond to relevant issues. The course also provides students with opportunities to develop skills that will enable them to pursue careers in health promotion, research or community health care.

Prerequisites:

- *Students must achieve a B grade or above in Year 10 English and Year 10 Health.*

Note:

- Students are required to purchase a textbook for this course, please check the booklist.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/health-and-physical-education>

OUTDOOR EDUCATION

(GEOED)
GENERAL SUBJECT

Through interaction with the natural world, Outdoor Education aims to develop an understanding of our relationships with the environment, others and ourselves.

The Outdoor Education General course focuses on outdoor activities in a range of environments, including bushwalking, canoeing, climbing and orienteering. It provides students with an opportunity to develop essential life skills and physical activity skills, and an opportunity to develop a comprehensive understanding of the environment and develop a positive relationship with nature.

The course also provides students with opportunities to develop skills that will enable them to pursue personal interests and careers in outdoor pursuits, environmental management, or eco-tourism.

Prerequisites:

- *Students must attend a pre-course swim evaluation session held during Term 4 this year.*

- *Achieve 'often' or above attributes and C grades of above on Year 10 Physical Education on school report.*

Note:

- Students must attend an early start (period 0) class once a week to attend off-site expeditions. There will be some additional costs for these expeditions.
- Students are required to purchase a red Thornlie SHS Outdoor Education shirt. This shirt must be worn during practical sessions and can be purchased from the teacher for \$45.
- As this is a high-cost subject, full payment or payment plan must be organised for payment of camps and excursion costs. (This is above the course fee).
- This course is 50% theory and 50 % practical.

For more information on this course, click the link below:
<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/health-and-physical-education>

PHYSICAL EDUCATION STUDIES

(GEPES)
GENERAL SUBJECT

Physical Education Studies contributes to the development of students' physical, social and emotional growth.

The Physical Education Studies General course provides students with opportunities to understand and improve performance through the integration of theoretical concepts and practical activities.

Through engagement as performers, leaders, coaches, analysts and planners of physical activity, students may develop skills that can be utilised in leisure, recreation, education, sport development, youth work, health and medical fields.

This course is 50% theory and 50 % practical.

Prerequisites:

- *Students must achieve a C grade or above in Year 10 Physical Education.*

Note:

- Students may need to attend an early start (period 0) class once a week.
- Students are required to wear their full Physical Education uniform during practical sessions. Students can buy the new white upper school Thornlie SHS Physical Education shirt from the physical education office for \$45.

For more information on this course, click the link below:
<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/health-and-physical-education>

The content and concepts of this course are similar to the above Physical Education Studies Unit, however Physical Education Studies Rugby is designed for students who have had successful experience in Special Rugby and is aimed at those achieving a B grade or better in Year 10. This course follows the curriculum of Physical Education General with a focus on the sport of Rugby.

This course involves both theoretical and practical components of the study of Physical Education and how it relates to the sport of Rugby. Students will spend two (2) periods per week in the classroom and

two (2) periods per week participating in practical Rugby sessions.

In addition to the set course work students studying this unit will have the opportunity to participate in inter-school competitions in Rugby Union, Rugby League, Touch Rugby and Flag Football. Students will also have the opportunity to gain coaching, refereeing and first aid qualifications.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/health-and-physical-education>

Humanities & Social Sciences

ANCIENT HISTORY

(GEHIA)

GENERAL SUBJECT

The Ancient History General course enables students to study life in early civilisations, based on the interpretation of the physical and written remains of different ancient societies. The study of ancient civilisations illustrates the development of distinctive features of contemporary societies; for example, social organisation and religion.

The course also explores the possible motivations and actions of individuals, and how they shaped the political, social and cultural landscapes of the ancient world. Students are introduced to the process of reconstructing the past using often fragmentary

evidence from a range of written and archaeological sources, and the skills associated with the analysis of historical sources.

The Year 11 syllabus is divided into two units and covers Ancient civilisations and cultures as well as Power in the ancient world.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/humanities-and-social-sciences>

BUSINESS MANAGEMENT & ENTERPRISE

(AEBME)

ATAR SUBJECT

The Business Management & Enterprise ATAR course gives students the opportunity to understand how vital business is to individuals and society and how it impacts on many aspects of our lives.

The course aims to prepare all students for a future where they will need to identify possibilities and create opportunities within a business environment.

The course equips students to proactively participate in the dynamic world of business, behave responsibly and demonstrate integrity in business activities.

Designed for students entering university and studying business in its many forms, such as international

relations, human resource management, advertising, marketing and public relations. Students will develop knowledge in all the above fields and understand concepts such as market mix, motivation of employees, investment, shares, GDP, interest rates, technological impacts, public image green businesses and much more.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/humanities-and-social-sciences>

CAREERS & EMPLOYABILITY

(GECM)

GENERAL SUBJECT

Careers and Employability benefits individuals by providing them with the knowledge, understanding and skills to navigate their careers successfully. Through engaging in self-reflection, students gain invaluable insights into their strengths, values and aspirations. Students explore labour market information to help them identify in-demand skills, emerging job roles and industry sectors experiencing growth.

The course supports the development of a range of employability skills including communication, digital

literacy, teamwork and problem-solving. By promoting a mindset of lifelong learning, students are better prepared to adapt effectively to emerging trends and challenges, helping them to achieve their long-term career goals.

For more information on this course, click the link below:

<https://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/humanities-and-social-sciences/careers-and-employability>

HUMANITIES AND SOCIAL SCIENCES IN ACTION

(GEHAA)
GENERAL SUBJECT

The Humanities and Social Sciences in Action General course encourages students to become socially aware and active participants in society. They develop knowledge and understanding of contemporary and ongoing issues facing individuals, societies and governments today and into the future.

The course provides students with the skills to make informed choices about important social issues. Students explore how change can be affected by the actions and perspectives of stakeholders, from

individuals and groups to governments. Humanities and Social Sciences skills are used to research viewpoints around contemporary issues and develop possible solutions to help ensure a more sustainable future.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/humanities-and-social-sciences>

PSYCHOLOGY

(AEPSY)
ATAR SUBJECT

In the Psychology ATAR course students will be introduced to psychological knowledge which supports an understanding of the way individuals think, feel and behave in different contexts. Students learn about major psychological theories, studies and models, and conduct scientific investigations. Students develop skills to apply their psychological knowledge to explain thoughts, feelings and behaviours in the everyday world. Students apply the principles of scientific inquiry and ethical guidelines as they analyse data used to

examine phenomena, such as developmental stages, memory, attention, attitudes, personality and social influence. An understanding of psychology is very useful, both to individuals and those assisting us to improve ourselves and our relationships, and to society as a whole.

For more information on this course, click the link below:

<https://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/science/psychology>

PSYCHOLOGY

(GEPSY)
GENERAL SUBJECT

In the Psychology General course students will be introduced to psychological knowledge which supports an understanding of the way individuals function in groups. Students learn about well-known psychological models and theories, and the methods used to conduct scientific investigations in the discipline of psychology. Acquiring this foundation of scientific method and

critical thinking is a valuable skill which students can apply throughout their study, work and everyday lives. For more information on this course, click the link below:

<https://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/science/psychology>

MODERN HISTORY

(AEHIM)
ATAR SUBJECT

The Modern History ATAR course enables students to study the forces that have shaped today's world and provides them with a broader and deeper comprehension of the world in which they live. While the focus is on the 20th century, the course refers back to formative changes from the late 18th century onwards and encourages students to make

connections with the changing world of the 21st century. Modern history enhances students' curiosity and imagination and their appreciation of larger themes, individuals, movements, events and ideas that have shaped the contemporary world. The themes that run through the units include local, national and global conflicts and their resolution; the rise of nationalism and its consequences; the decline of imperialism and

the process of decolonisation; the continuing struggle for the recognition of human rights; the transformation of social and economic life; the regional shifts in power and the rise of Asia; and the changing nature and influence of ideologies.

The Modern History ATAR course begins with a study of key developments that have helped to define the modern world, with special attention given to important ideas and their consequences. This provides a context for a study of movements for change in the 20th century that have challenged the authority of the nation-state, the principal form of political organisation in the modern world. Students then investigate crises that confronted nation-states in the

20th century, the responses to these crises and the different paths nations have taken in the modern world. The course concludes with a study of the distinctive features of world order that have emerged since World War II and that are central to an understanding of the present.

For more information on this course, click the link below:

<https://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/humanities-and-social-sciences/modern-history-ATAR>

MODERN HISTORY

(GEHIM)
GENERAL SUBJECT

The Modern History General course provides students with an understanding of the driving forces behind present local and global issues. Investigating the past helps students to understand why and how groups and/or societies changed or resisted change.

The Modern History General course allows students to gain insights into their own society and its values. It helps them to understand why nations and people hold certain values, and why values and belief systems vary from one group to another. This knowledge is crucial to the development of active and

informed citizens in any society. The study of history ensures that they gain essential knowledge of the past – its legacy and heritage.

For more information on this course, click the link below:

<https://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/humanities-and-social-sciences/modern-history-general>

Languages

JAPANESE: SECOND LANGUAGE

(AEJSL)
ATAR SUBJECT

The Japanese: Second Language ATAR course is designed to further develop students' knowledge and understanding of the culture and the language of Japanese-speaking communities, providing them with opportunities to gain a broader and deeper understanding of Japanese and extend and refine their communication skills.

The course focuses on the interrelationship of language and culture, and equips students with the skills needed to function in an increasingly globalised society, a culturally and linguistically diverse local community, and provides them with the foundation for life-long language learning. Relevant and engaging tasks,

delivered through a range of appropriate contexts and topics, develop literacy in the Japanese language as well as extend literacy development in English.

Languages Bonus

Students who complete Units 3 and 4 of Japanese: Second Language (ATAR) are eligible for a Languages Bonus of 10% of their scaled Languages mark which will count towards their TEA.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/languages>

ENROLMENT CRITERIA FOR WACE LANGUAGE COURSES

If you wish to study a WACE language course (excluding Aboriginal Languages of Western Australia), there is a form that needs to be completed to ensure you are permitted to enrol in the selected course.

Enrolment criteria considerations include residency in the country where that language is spoken and exposure to that language either at a school or in the home. It is your responsibility to ensure that the form is completed fully and accurately before it is submitted. The application form, stating the deadlines for submission, is available on the Authority website at www.scsa.wa.edu.au/internet/Events_and_Forms/Application_Order_Forms.

You should discuss your enrolment options with your careers counsellor.

Mathematics

MATHEMATICS FOUNDATION

(FEMAT)

FOUNDATION SUBJECT

The Mathematics Foundation course focuses on building the capacity, confidence and disposition to use mathematics to meet the numeracy standard for the WACE. This course is for students who have not demonstrated the numeracy standard in the OLN and are rated Category 1.

It provides students with the knowledge, skills and understanding to solve problems across a range of contexts including personal, community and workplace/employment. This course provides the opportunity for students to prepare for post-school options of employment and further training.

Note:

- If students reach the minimum standard (Category 3) in Round 1 (Semester 1), they will be required to change out of the Foundation course and into the General course for Semester 2.
- If students reach the minimum standard (Category 3) in Round 2 (Semester 2), they will not be required to change out of the Foundation course.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/mathematics>

MATHEMATICS ESSENTIAL

(GEMAE)

GENERAL SUBJECT

The Mathematics Essential General course focuses on enabling students to use mathematics effectively, efficiently and critically to make informed decisions in their daily lives.

It provides students with the mathematical knowledge, skills and understanding to solve problems in real contexts for a range of workplace, personal, further learning and community settings. This course offers students the opportunity to prepare for post-school options of employment and further training.

Prerequisites:

- Students should have demonstrated an achievement of Category 2 or above in their OLN Numeracy Assessment and for those that have not sat OLN (rated NSA).

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/mathematics>

MATHEMATICS APPLICATIONS

(AEMAA)

ATAR SUBJECT

This course focuses on the use of mathematics to solve problems in contexts that involve financial modelling, geometric and trigonometric analysis, graphical and network analysis, and growth and decay in sequences.

It also provides opportunities for students to develop systematic strategies based on the statistical investigation process for answering statistical questions that involve analysing univariate and

bivariate data, including time series data.

The Mathematics Applications ATAR course is designed for students who want to extend their mathematical skills beyond Year 10 level, but whose future studies or employment pathways do not require knowledge of calculus. The course is designed for students who have a wide range of educational and employment aspirations, including continuing their studies at university or TAFE.

Prerequisites:

- *OLNA (Stage 3)*
- *10.1 & 10.2 (65% in year 10)*

Note:

- Final Exams for this course will be held at the same time as the Year 12 Exams (During the Sept/Oct school holidays)

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/mathematics>

MATHEMATICS METHODS

(AEMAM)
ATAR SUBJECT

This course focuses on the use of calculus and statistical analysis. The study of calculus provides a basis for understanding rates of change in the physical world, and includes the use of functions, their derivatives and integrals, in modelling physical processes. The study of statistics develops students' ability to describe and analyse phenomena that involve uncertainty and variation.

Mathematics Methods provides a foundation for further studies in disciplines in which mathematics and statistics have important roles. It is also advantageous for further studies in the health and social sciences. In summary, this course is designed for students whose future pathways may involve mathematics and

statistics and their applications in a range of disciplines at the tertiary level.

Prerequisites:

- *75% and above in Year 10.1 and 10.2*

Note:

- Final Exams for this course will be held at the same time as the Year 12 Exams (During the Sept/Oct school holidays)

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/mathematics>

MATHEMATICS SPECIALIST

(AEMAS)
ATAR SUBJECT

This course provides opportunities, beyond those presented in the Mathematics Methods ATAR course, to develop rigorous mathematical arguments and proofs, and to use mathematical models more extensively. Mathematics Specialist contains topics in functions and calculus that build on and deepen the ideas presented in the Mathematics Methods course, as well as demonstrate their application in many areas.

The Mathematics Specialist course also extends understanding and knowledge of statistics and introduces the topics of vectors, complex numbers and matrices. Mathematics Specialist is the only ATAR mathematics course that should not be taken as a stand-alone course and it is recommended to be studied in conjunction with the Mathematics Methods

ATAR course as preparation for entry to specialised university courses such as engineering, physical sciences and mathematics.

Prerequisites:

- *80% and above in Year 10.1 and 10.2*

Note:

- Final Exams for this course will be held at the same time as the Year 12 Exams (During the Sept/Oct school holidays)

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/mathematics>

CHEMISTRY

(AECHE)
ATAR SUBJECT

The Chemistry ATAR course equips students with the knowledge, understanding and opportunity to investigate properties and reactions of materials. Theories and models are used to describe, explain and make predictions about chemical systems, structures and properties. Students recognise hazards and make informed, balanced decisions about chemical use and sustainable resource management. Investigations and laboratory activities develop an appreciation of the need for precision, critical analysis and informed decision making.

This course prepares students to be responsible and efficient users of specialised chemical products and processes at home or in the workplace. It also enables students to relate chemistry to other sciences, including biology, geology, medicine, molecular biology and agriculture, and prepares them for further study in the sciences.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/science>

HUMAN BIOLOGY

(AEHBY)
ATAR SUBJECT

The Human Biology ATAR course gives students a chance to explore what it is to be human—how the human body works, the origins of human variation, inheritance in humans, the evolution of the human species and population genetics. Through their investigations, students research new discoveries that increase our understanding of human dysfunction, treatments and preventative measures.

Practical tasks are an integral part of this course and develop a range of laboratory skills; for example,

biotechnology techniques. Students learn to evaluate risks and benefits to make informed decisions about lifestyle and health topics, such as diet, alternative medical treatments, use of chemical substances and the manipulation of fertility.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/science>

PHYSICS

(AEPHY)
ATAR SUBJECT

In the Physics ATAR course students will learn how energy and energy transformations can shape the environment from the small scale, in quantum leaps inside an atom's electron cloud, through to the human scale, in vehicles and the human body, to the large scale, in interactions between galaxies.

Students have opportunities to develop their investigative skills and use analytical thinking to explain and predict physical phenomena. Students plan and

conduct investigations to answer a range of questions, collect and interpret data and observations, and communicate their findings in an appropriate format. Problem-solving and using evidence to make and justify conclusions are transferable skills that are developed in this course.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/science>

HUMAN BIOLOGY

(GEHBY)
GENERAL SUBJECT

The Human Biology General Course gives students a chance to explore how the human body works. In year 11, the students investigate various body systems and how they interact with each other. Unit 1 explores the role of the digestive system in providing essential nutrients for the musculoskeletal system. It also explores how the dietary decisions we make can affect the functioning of body cells and our quality of life.

Following, Unit 2 explores circulatory, respiratory and urinary systems, and how they facilitate the exchange, transport and removal of materials for efficient body functioning. It also explores the importance of regular health checks to prevent or manage medical problems. "An understanding of Human Biology is essential for making good life decisions and contributing effectively to discussions related to health issues in the community. In the Human Biology General course, students engage in activities and investigations to explore the interdependence of body systems for

maintaining life and how personal decisions can affect a human body's functions and their quality of life. Practical activities are an integral part of this course and students develop a range of laboratory skills.

Practical activities will be used to explore the body systems through practical examination of cells, organs and systems and model processes. Students will learn to evaluate risks and benefits to make informed decisions about lifestyle and health topics, such as diet, alternative medical treatments, use of chemical substances, vaccination and the manipulation of fertility. Students will be encouraged to use digital technologies to interpret and communicate their findings in a variety of ways."

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/science>

SCIENCE IN PRACTICE

(GESIP)
GENERAL SUBJECT

The Science in Practice course is grounded in the knowledge that science is multidisciplinary, therefore includes practical and theoretical aspects of biology, chemistry, geology and physics.

It is an all-encompassing course that is inclusive and aims to appeal to students with a wide variety of backgrounds, interests and career aspirations. The course is designed to be highly practical as it encourages students to question, reflect and think critically about matters that affect their daily lives and the world

around them. 80% of the course is hands-on, wherein, students engage in a variety of activities and investigations, demonstrating their knowledge of workplace health and safety, their knowledge of the natural and technological world, and investigate the relationship between the living and physical systems.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/science>

COMPUTER SCIENCE

(AECSC)
ATAR SUBJECT

This course is designed to develop students understanding of the creation of computer systems, databases and programs that affect our lives every day. Students will gain knowledge of the underlying principles of information systems, system design and development, database design and development and programming.

Designed for students heading towards university entrance into fields of computing, software development, information systems, system analysis etc.

Students develop problem-solving abilities and technical skills as they learn how to diagnose and solve problems in the course of understanding the building block of computing

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/technologies>

APPLIED INFORMATION TECHNOLOGY

(GEAIT)
GENERAL SUBJECT

Throughout the Applied Information Technology General course, students investigate client-driven issues and challenges, devise solutions, produce models or prototypes and then evaluate and refine the design solution in collaboration with the client. Students are provided with the opportunity to experience, albeit in a school environment, developing digital solutions for real situations.

Students will use industry standard software such as Adobe Photoshop, Director, Flash, dreamweaver, the

MS Office Suite and premier as well as online environments such as wix and soundnation.

The course provides a sound theoretical and practical foundation, offering pathways to further studies and a wide range of technology based careers.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/technologies>

DESIGN (TECHNICAL GRAPHICS)

(GEDEST)
GENERAL SUBJECT

In the Design course students develop skills and processes for current and future industry and employment markets. Students are equipped with the knowledge and skills to understand design principles and processes, analyse problems and possibilities, and devise innovative strategies within design contexts. These include photography, graphics, dimensional design and technical graphics.

The Design course also emphasises the scope of design in professional industries allowing students to maximise university pathways. Design can be offered by schools in several different contexts. This course specifically studies Technical Graphics.

This context may include elements of freehand sketching and presentation techniques to include rendering skills, tone and line work; CAD and instrument drawing skills; 2D/3D introduction, study tools and equipment, drawing layout, conventions, orthographic projection, perspective drawing and engineering drawing. Technical Graphics uses conventions of technical drawing and computer-aided design to create designs that deal with mainly three dimensional subjects, usually of an industrial nature.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/arts>

MATERIALS, DESIGN & TECHNOLOGY (TEXTILES)

(GEMDTT)
GENERAL SUBJECT

The Materials Design and Technology (Textiles) General course is a practical course. Working with textiles, students develop a range of manipulation, processing, manufacturing and organisational skills.

When designing with textiles, they develop cognitive skills, such as solving problems, generating ideas, creative design strategies and communicating what they do. Students will have the opportunity to demonstrate their own style using various techniques

to create quality garments and homewares. The Materials Design and Technology (Textiles) General course aims to inspire students who display an interest in design and production, related to fashion and interior design.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/technologies>

FOOD SCIENCE AND TECHNOLOGY

(GEFST)
GENERAL SUBJECT

The Food Science and Technology General course provides opportunities for students to explore and develop food-related interests and skills. Food impacts on every aspect of daily life and is essential for maintaining overall health and wellbeing.

Students organise, implement and manage production processes in a range of food environments and understand systems that regulate food availability, safety and quality. Knowledge of the sensory, physical, chemical and functional properties of food is applied in practical situations.

Students investigate the food supply chain and value-adding techniques applied to food to meet consumer and producer requirements. Principles of dietary planning, adapting recipes, and processing techniques, are considered for specific nutritional needs of demographic groups.

Occupational safety and health requirements, safe food handling practices, and a variety of processing techniques, are implemented to produce safe, quality

food products. This course may enhance employability and career opportunities in areas that include nutrition, health, food and beverage manufacturing, food processing, community services, hospitality and retail.

This course has a high practical food content.

Students will learn how to operate a commercial coffee machine. They will be rostered on throughout the year to prepare and serve coffee and food to clients of the Thornlie Senior High School Flourish Café during recess.

Students **will be required** to attend either a period 0 or period 6 for practical lessons; this will be determined by the timetable. Additionally all students **will be required** to participate in the operation of Flourish Cafe.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/technologies>

MATERIALS, DESIGN & TECHNOLOGY (METALS)

(GEMDTM)
GENERAL SUBJECT

The Materials Design and Technology (Metals) General course is a practical course. Working with metals, students develop a range of manipulation, processing, manufacturing and organisational skills.

When designing with metals, they develop cognitive skills, such as solving problems, generating ideas,

creative design strategies and communicating what they do. This makes them more technologically literate and, as consumers, enables them to make more informed decisions about the use and misuse of technology.

The Materials Design and Technology (Metals) General course aims to prepare all students for a future in a

technological and material world by providing the foundation for lifelong learning about how products are designed and how materials are developed and used.

For more information on this course, click the link below:

<http://senior-secondary.scsa.wa.edu.au/syllabus-and-support-materials/technologies>

MATERIALS, DESIGN & TECHNOLOGY (WOOD)

(GEMDTW) GENERAL SUBJECT

The Materials Design and Technology (Wood) General course is a practical course. Working with wood, students develop a range of manipulation, processing, manufacturing and organisational skills.

When designing with wood, they develop cognitive skills, such as solving problems, generating ideas, creative design strategies and communicating what they do. Students are provided with a foundation for lifelong learning and wood product design and manufacture.

The Materials Design and Technology (Wood) General course is separate to the Certificate II in Visual Arts (Wood) and would suit students who would like to continue their interest in woodwork skills but wish to pursue another Certificate course.
